

Machined Quartz

MACHINED

QUARTZ CUSTOM

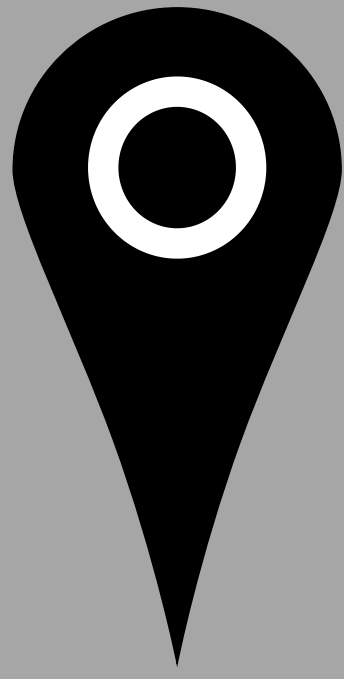

We stock many items but also remain flexible and help provide growing labs with custom-
machined quartz labware in low quantities at an affordable rate so that cash-strapped startups aren't restricted by high costs right out of the gate. We also scale up to provide mass-produced OEM machined quartz products for several major diagnostics companies.

Quartz Capillary Tube | Machined Quartz

Having a funnel-shaped end at one end and a closed-end at the other, this capillary can be easily defined by its diameter. Quartz capillary tubes from Machined Quartz are of the highest quality. We offer capillary tubes of every shape, size, and material.
