# What is a Key Fob?

## 1 Wireless Device

A key fob is a small, handheld device that allows keyless entry into a vehicle.

## 2 Remote Control

It often contains buttons to lock/unlock doors, open the trunk, and even start the engine remotely.

## 3 Security Feature

Some key fobs also have advanced security features like immobilizer systems to prevent theft.

# Signs You Need a Key Fob Replacement

## Worn Buttons

If the buttons are worn or unresponsive, it's a clear sign that a replacement is needed.

## Intermittent Signals

Issues with signal transmission indicate a failing key fob that needs replacement.

## Lost or Stolen

If your key fob is lost or stolen, it's crucial to get it replaced to ensure vehicle security.
