

Aluminium Air Battery

IOC Phinergy is a joint venture between IndianOil Corporation and Phinergy Limited. IOC Phinergy has patented the rights for [Aluminium Air Battery](#) India to manufacture and market its products. These batteries partially reduce the requirement for lithium-ion batteries. It is safer and more economical to use these aluminium air batteries in your electric vehicle. These batteries can be used again as energy storage devices because they have a 100% material recovery rate.
